This session will be led by Malcolm Batchelor, Programme Manager, Sector Support Team, JISC and representatives from the 3Square project team.

JISC is working with QCA to produce a glossary of e-assessment terms and definitions from across the UK education sector. The glossary will be aimed primarily at practitioners in the 4-19, post-16 and HE sectors although this will also be of use for other key stakeholders, including funding and regulatory bodies, strategic partners and examining boards.

This session will explore the issues in developing a glossary for e-assessment and participants will have the opportunity to contribute ideas to the format and structure that the glossary will take.
